EDUCATION

University of Greenwich

2018 - 2023

Bachelor of Science in Computing

- Specialized in software development, focusing on mobile and web technologies.
- Gained in-depth knowledge of programming languages, software engineering principles, and development methodologies.
- Developed strong problem-solving skills through coursework and hands-on projects.
- Actively participated in group projects, enhancing teamwork and communication skills.
- Graduated with a strong academic record, prepared for a professional career in tech.

SKILLS

Programming Languages & Frameworks:

- Flutter/Dart (Advanced)
- React Native (Proficient)
- JavaScript (Proficient)
- HTML, CSS (Proficient)

Development Tools: Git, GitHub (Version

- Control)
- Visual Studio Code, Android Studio,
- Xcode
- Postman (API Testing)

Technical Skills:

- Mobile Application Development (iOS & Android)
- Web Development (Front-end)
- API Integration (RESTful APIs)
- Software Testing (Manual)
- State Management (Provider, BLoC)

Soft Skills:

- Problem Solving
- Teamwork & Collaboration
- Critical Thinking
- Time Management
- Effective Communication

PROFILE

Software Developer with a B.Sc. in Computing from FPT Greenwich (UoG) and 2+ years of hands-on experience in mobile and front-end development. Adept at shipping high-quality, user-focused products and collaborating efficiently in agile development environments.

WORK EXPERIENCE

MOBILE DEVELOPER – REACT NATIVE (FULL-TIME)

Apotech Solutions, Ho Chi Minh City

Mar 2023 - Present

- Conducted manual testing (functional, regression, and cross-browser) for web and mobile apps to identify bugs and usability issues.
- Developed and executed test cases/plans based on project requirements; documented test results to provide actionable feedback.
- Collaborated with developers to reproduce and isolate defects, ensuring high-quality and stable software releases.

SOFTWARE TESTER – MANUAL (FULL-TIME)

Apotech Solutions, Ho Chi Minh City

Nov 2022 – Mar 2023

- Developed & maintained cross-platform mobile apps using Flutter & Dart, ensuring responsive UI across multiple devices.
- Integrated RESTful APIs for seamless frontend-backend data communication; implemented state management via Provider and BLoC.
- Participated in agile practices (daily stand-ups, code reviews) and active debugging to optimize app performance and code quality.

MOBILE DEVELOPER (FLUTTER) – INTERNSHIP

NATA Vietnam JSC, Ho Chi Minh City

Feb 2022 – May 2022

- Conducted manual testing (functional, regression, and cross-browser) for web and mobile apps to identify bugs and usability issues.
- Developed and executed test cases/plans based on project requirements; documented test results to provide actionable feedback.
- Collaborated with developers to reproduce and isolate defects, ensuring high-quality and stable software releases.

PROJECTS

INTERNAL PRODUCTS

ERP Enterprise System | ReactJS, NestJS, PostgreSQL An internal ERP ecosystem consisting of WMS, HRM, and CRM modules to optimize workflows. Developed scalable web modules and RESTful APIs to ensure smooth data synchronization across departments.

FEATURED PROJECTS

Greenleaf Passenger & Driver Apps | React Native, NestJS

- Description: A dual-app mobility ecosystem for ride-booking, driver dispatching, real-time route tracking, and trip confirmations.
- Key Contributions: Developed responsive mobile UIs for both apps, integrated location-based services, and handled seamless state management.

Nha Tro Sach Se - Booking & Payment System | React Native, ReactJS, NestJS

- Description: A property ecosystem featuring mobile apps for room bookings/payments and a web portal for property management.
- Key Contributions: Built seamless booking and deposit payment flows, implemented admin management dashboards, and developed robust backend APIs.

Kim Tin Group (KTG) - Procurement Review and Approval App | React Native

An enterprise mobile application focused on bidding package approvals and high-level project overviews. Built clean dashboard layouts and optimized data-fetching to ensure fast, responsive approval workflows.
